Relationship to Patient

Patient Insurance-Financial Responsibilities Notification

To all patients:

Thompson Peak Internal Medicine the office of Dr. Gary Betz, commonly requests blood work or consultation with other specialists regarding your care. For those of you who have limitations in terms of managed care programs, or insurance contracts with laboratories or imaging facilities, it is your responsibility to make sure that the laboratory or imaging facility which is used is proper for your coverage, or make sure that necessary insurance authorization is obtained before your consultation, lab work or diagnostic testing.

Although we make an effort to try to make sure our referrals and orders are in accordance with the individual patient's health plan, we cannot take responsibility for this.

For those who have Medicare and other insurances, we attempt to provide the coding necessary for Medicare and insurances to cover your blood work, but it is not always possible that blood work ordered is covered by Medicare or insurance. We make no representation that we can guarantee insurance coverage, and will not accept any responsibility for payment of laboratory or diagnostic imaging charges. If you decide that you do not wish to have diagnostic studies or laboratory tests performed which are recommended by our physicians, because of insurance coverage, that responsibility is yours, including responsibility for failure to diagnose a disease which otherwise would have been found.

It is regrettable that we have to issue this letter, but "circumstances" with today's complex insurance / Medicare rules and regulations require this. Please contact the office if you have any questions.

Sincerely,

The office staff of Thompson Peak Internal Medicine

I have read and understand the above.

NOTICE TO PATIENTS REGARDING PHYSICALS/WELL EXAMS

If you have scheduled an Annual Wellness Visit (AWV) <u>or</u> physical exam for today, your insurance company may call this visit "preventative", "yearly" or "annual". Please take a moment to read the remainder of this letter:

FOR COMMERCIAL HEALTH INSURANCE PATIENTS (NOT MEDICARE):

Due to national coding laws, we must bill your insurance company for your exam today as a <u>preventative care visit</u>, which may include: History; Vital Signs – Blood Pressure, Heart Rate, Respiration Rate, Temperature; General Appearance; Heart Exam; Lung Exam; Head and Neck Exam; Abdominal Exam; Neurological Exam; Dermatological Exam; Extremities (Arms and Legs) Exam.

Laboratory Tests

There are no standard laboratory tests during an annual physical. However, the doctor may order certain tests routinely:

- Complete blood count
- Chemistry panel
- Urinalysis (UA)

A screening lipid panel (cholesterol test) is recommended every 4 to 6 years.

Physicals Should Emphasize Prevention

The annual physical exam is a great opportunity to refocus your attention on prevention and screening:

- At age 50, it's time to begin regular screening for colorectal cancer or other risk factors.
- For some women, age 40 marks the time to begin annual mammogram screening for breast cancer.

If during your visit you have additional concerns that require diagnosis and treatment, or chronic conditions that need to be managed, you may incur additional office or lab charges - including a copay and/or deductible. Additionally, if your Physician finds a medical issue that needs immediate care, they are required to address the concern, which may result in an office visit charge. These additional charges will be submitted to your insurance company, as well as the preventative visit. If your insurance company does not cover some or all of the charges, you will be billed for the balance your insurance company indicates as patient responsibility. Please do not ask us to re-bill by changing a procedure or diagnostic code. By asking this of your physician, you are asking her to commit insurance fraud. You may also schedule a separate follow up appointment with the doctor to address your additional concerns instead of having them addressed today.

FOR MEDICARE PATIENTS:

Please be aware that the Medicare Annual Wellness Visit (AWV) consists of a history, medication review, fall risk screening, depression screening and vital signs. An EKG may be done and will be billed separately. Laboratory testing and a Physical are not part of the service and is ordered and billed separately. Coverage of the AWV visit is provided as a Medicare Part B benefit. The Medicare deductible is waived for the AWV. If you are here for the Annual Wellness Visit, please be sure to tell your provider. *If during your visit you have additional concerns or conditions that require diagnosis and treatment, you may incur additional office or lab charges. Additionally, if your Physician finds a medical issue that needs immediate care, they are required to address the concern, which may result in an office visit charge.*

Thank you for your understanding in this matter. Your cooperation is greatly appreciated.

Thompson Peak Internal Medicine FINANCIAL POLICY 2015

We appreciate that you have entrusted Thompson Peak Internal Medicine (TPIM) with your health care. Our office is dedicated to providing the best possible care and service to you and regard your complete understanding of our financial policies as an essential element of your care and treatment. Because healthcare benefits and coverage options have become increasingly complex, we have developed this policy which details our financial requirements to help you better understand your responsibilities as a patient.

It is your responsibility to know if your insurance has specific rules or regulations, such as the need for referrals, precertifications, preauthorizations, limits on outpatient charges, specific physicians and/or hospitals to use. You should be knowledgeable of any deductibles, co-payments, and/or coinsurance. This applies to all payors regardless of whether or not our physicians participate. It is your responsibility to notify the office of any changes in your coverage prior to service.

Our office understands the value of insurance benefits, as a courtesy, we will file your insurance claim for you if you assign the benefits to the doctor. In other words, you agree to have your insurance company pay the doctor directly. Payment of fees for the Provider's services is the direct responsibility of the patient. Your health benefit plan is an arrangement between you, the enrollee and the insurance company, HMO or your employer. Your health benefit plan determines your coverage, requirements, and establishes the limit on your coverage for medical services based on what they determine as medically necessary. We will do our best to assist you with understanding your proposed treatment and in answering questions related to your insurance.

Due to increased insurance company demands, we ask you to read and agree to the following TPIM provisions:

Private Pay Patients: If you have no insurance coverage, full payment is expected at the time of service.

<u>Services not covered by your insurance plan</u>: Services not covered by your insurance plan are your responsibility. You will receive a statement from us for the amount due. We advise you to contact your insurance company in advance to verify coverage for specific benefits such as well checks, immunizations, behavioral visits and lab services.

<u>Patients with contracted insurance plans</u>: Your copayments and/or coinsurance are due at the time of your visit. As a courtesy, our office will submit your claim to your insurance carrier.

Patients with private insurance/out of network plans/out of state plans: Payment in full is due at the time of your visit. A paid receipt will be provided to you to submit to your insurance company.

Payment options: We accept Cash, Check, Visa, Master Card, Discover Card (sorry, no American Express)

<u>Statements</u>: Statements will be mailed to the address that we have on file for you.

<u>Outside Collections</u>: If your outstanding balance has not been paid to TPIM within 120 days, your account will be turned over to Collections. Please contact our billing company for details.

Laboratory Fees: You will receive a separate laboratory fee for their services. Any lab services that are not covered by your insurance will be your responsibility.

<u>Address and Insurance Changes:</u> Please let us know if your address, phone numbers, insurance, etc. change, so that your information is always current and accurate in your records. It is your responsibility to make sure we have the most up to date information for you.

Non-participating insurance plan	Full payment is due at time of service
Other charges/fees*: Missed Appointment Fee	The office requires at least 24 hours notice when cancelling an appointment. - Failure to provide this notice will result in a charge of: \$50 for routine or problem-focused visits \$100 for physical exams or extended visits
Blocked Call fee:	When paging the Provider after hours, your phone must be "unblocked" in order to reach you. Failure to do so will result in a delayed response and a \$25 charge.
Returned Check Fee:	\$25 (only cash, debit cards and credit cards are accepted in the office)
Statement Fee:	After your initial statement, each subsequent mailed statement with a balance showing, will incur a \$25 Processing fee
Collection Fee:	Any outstanding balances after 120 days will be sent to collections. A collection service fee of \$50 will be incurred. Legal interest on the indebtedness and related attorney fees will be added. Delinquent accounts will result in discharge from practice, at which time, 30 days from time of notice, only emergent care will be provided while you establish with another physician
Medical Records:	A fee of \$25 is due prior to receipt of records
Special Paperwork:	A \$25-\$75 fee for completing medical forms or other health related paperwork

* subject to change at any time

We realize that medical care can often become very expensive. If you have concerns about your ability to pay for service, we recommend that you contact us for assistance in management of your account.

Should you have any questions with regard to our financial policy we encourage you to ask. It is our goal, not only to provide the best quality of medical care, but to help you by answering any questions you might have.

I have read and understand TPIM's Financial Policy and agree by its terms. I understand that I am financially responsible for all charges incurred in the event my insurance denies payment after a claim has been submitted by Thompson Peak Internal Medicine. I understand that my insurance is an arrangement between myself and my insurance company, and that it is my responsibility to understand my benefits.
